FINANCIAL DATA ANALYSIS PROFESSIONAL

A dynamic data analyst with experience in financial analysis and residential counseling. Possesses a versatile skillset that seamlessly integrates analytical proficiency with empathetic communication, bridging the gap between data-driven insights and practical, people-oriented applications. Proficient in utilizing SQL, Python, Excel, Tableau, and PostgreSQL to analyze complex data sets, extract valuable insights, and support data-driven decision-making.

CORE COMPETENCIES

- Data Analysis: SQL, Python
- Data Visualization: Tableau
- Data Manipulation: Excel, Postgre, Azure Data Studio
- Financial Modelling / Financial Data Analysis
- Cross-Functional Collaboration / Teamwork
- Finance & Equity Research & Analysis

PROJECTS

INSTACART BASKET ANALYSIS

MAY 2023

- ♦ **Utilized** Python and libraries such as pandas, NumPy, and matplotlib to clean, preprocess, & visualize the data, identifying missing values, outliers, and patterns.
- ♦ **Led** data collection, analysis, and interpretation to identify trends and provide strategic recommendations.
- ♦ **Engineered** interactive visualizations using seaborn and plotly, highlighting sales patterns over time, customer segmentation, and geographic distribution of customers for effective presentation and analysis.
- ♦ **Executed** a thorough exploratory data analysis on an online retail dataset, scrutinizing orders by time of day, product performance, and purchase frequency. Delivered actionable insights to inform decision-making.

ROCKBUSTER STEALTH LLC

APRIL 2023

- ♦ **Leveraged** PostgreSQL for querying, cleaning, summarizing, filtering & ordering data using advanced SQL techniques, including the utilization of WHERE & HAVING clauses.
- ♦ **Applied** expertise in employing SQL joins to seamlessly extract relevant information from multiple tables, enhancing data integration & analysis.
- ♦ **Utilized** SQL query results to generate insightful visualizations and drive data derived insights using tableau, contributing to informed decision-making processes.

PROFESSIONAL EXPERIENCE

RESIDENTIAL COUNSELOR | THE BRIDGE - NY

07/ 22- PRESENT

- ♦ **Managed** and analyzed various aspects of client support, including cooking, cleaning, budgeting, and medication management.
- ♦ **Executed** prompt & precise reporting of incidents, allegations, and sensitive situations, adhering to established policies and procedures.

FINANCIAL ANALYST INTERN | JETBLACK

01/ 19- 06/20

- ♦ **Designed** and crafted spending reports on a weekly and monthly basis improving data accuracy by 20% through streamlined reporting processes.
- ♦ **Developed** financial models and presented management with data to promote business acquisitions and raise customer satisfaction levels.
- ♦ **Analyzed** the company's financial health by scrutinizing P&L statements and Balance sheets, identifying trends and mitigating potential risks, resulting in a 10% increase in overall fiscal efficiency, as documented in detailed reports and presentations.

FINANCE INTERN | MORGAN STANLEY - NY

06/ 18 - 09/18

- ♦ **Attained in-depth knowledge** of finance and business markets. Gained comprehensive mentorship from a senior manager while building financial models to forecast investments using Microsoft Excel
- ♦ **Partnered** closely with departments, gathering data and insights to foster a holistic understanding of the business.
- ♦ **Built financial models**, supported budget management, analyzed financial statements, performed historical analysis, and worked with senior advisors to create comprehensive financial plans based on industry best practices.
